

**Module 1:** Nothing

**Module 2:**

[Master theorem solver \(JavaScript\)](#)

**Module 3:**

[Data Structure : Infix Postfix Prefix - Converter & Evaluator](#)

[HashTable Calculator](#)

[Binary Search Tree Visualization](#)

**Min Heap:** [Heap Visualization](#)

**Max Heap:** [Binary Heap + Priority Queue](#)

**Module 4:**

[Knapsack Calculator](#)

[Create Graph online and find shortest path or use other algorithm](#)

[Longest Common Subsequence Simulation \(LCS\) @jon.andika](#)

[Vamonos: Dynamic algorithm visualization in the browser](#)
